2013 novelty AUGUST 11

I am drawing about the rubber coasters I made.

I wanted to try making rubber coasters. I had only planned on getting a few quotes but I got twice the amount of quotes and as I can't back out I ended up making them... I am using nine colors but I used the same colors too much and the coasters did not come out as well as I'd hoped. But they are okay. There were a lot of people who said they wanted one and I am happy that I won't have to dive into a sea of rubber coasters at Obon. Since most of you will only have this paper, you probably won't understand what I am talking about.

Thank you. I didn't think I would see the rubber coasters before this manuscript was finished, but they were delivered today and I put them next to me to look at while typing this. The characters stand out a bit! The letters for KOMEYA have also been reproduced as expected! I am happy that by becoming merchandise, there is yet another way of enjoying them ♪ I don't know if there is a demand for original merchandise (I know, I always write this, but since this time it's a different medium, I really don't know and can't predict it (・・;) There are many things to consider, such as people who are happier to have the writing... But I couldn't help myself...
However, I wonder if, because I fussed over things like colors, they were produced quite well... The people who managed to get a coaster please use them under your drink when drinking ~(˘▽˘)~. And then, we'll steadily make the white briefs dirty.
Well then, Let's meet again in the winter!

THANKS FOR YOU !!
